GIANT

PLEASE READ CAREFULLY

PLEASE DO NOT SEND STAMPS.

Do not change collections or special sets. The collections are made up as they are for definite reasons and we cannot change them. Any of these collections or specials are very good values.

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents or 4 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any item at less than 10 cents and very little at that price. **No single item accepted for less than 10 cents.**

EXTRAS ON CASH ORDERS. On cash orders of \$3.00 to \$8.00 you can select 10% extra in bulbs of your own choosing. From \$8.00 to \$25.00 select 15%; \$25.00 and above select 20%. **These Discounts do not Apply to Collections, Special Offers, Wholesale Prices or 1948 Introductions. But the above extras are only for cash before shipment.**

TO MAKE OUT YOUR ORDER put everything down on the order blank, just as listed in the price list. Add it up, then figure out any special discounts or add on the extra bulbs of your choosing. It is all very simple but some people seem to have a lot of trouble in making out an order.

Also on all orders of \$15.00 or more I will put in a bulb of **Miss Vermont** if requested.

On orders of \$30.00 or more I will put in 2 free bulbs of **Miss Vermont** if requested.

The above discounts and extras are all for cash orders. The earlier the orders are received and the larger they are the more generous we will be with our extras. If you cannot spare all the cash now send 25% and the balance later and we will see that you are satisfied.

Packages of bulblets run from 25 to 50 or more. We give very good value.

You can have 5 bulbs at the 10 rate; 25 at the 100 rate. But no single items for less than 10 cents. No order for less than \$1.00 or foreign for less than \$5.00.

I GUARANTEE SATISFACTION and I mean just that. If at any time, either after receiving the bulbs or after blooming you have cause for complaint just write me about it and I will do my utmost to make things right. This is the only basis on which anyone can hope to conduct a business that will be permanently successful.

At these prices all bulbs, except the wholesale offers or special, are prepaid anywhere in the United States.

SPECIAL QUOTATIONS. Do not ask for special quotations unless you have a large order. We will not consider quoting any special prices on small orders. I publish this price list to give people the prices and do not consider it honest to give one person a lower price than another. **However, on a very large order we may be able to make lower prices on certain items to Growers, Dealers or Jobbers.**

REMEMBER in buying bulbs price is not everything. In fact sometimes price is a minor item. Consider the quality, count, the reliability of the grower, etc. I always mean to put in enough extra count or over size to make up for any lower price that other good reliable growers might make. **Just leave it to me.**

IF YOU WANT TO PAY TRANSPORTATION and get extra count on your order just mention it and I will send your order collect and will see that you are more than satisfied. Just mention whether you want extra count on your order or extras in other kinds and what kinds. If you want bulbs sent by mail it is better to have them go C. O. D., then we know the postage is correct and I will give you more than enough bulbs to make it up.

ON FAIR SIZED ORDERS, EXPRESS is safest and best especially in the winter time; I advise it if you are situated so as to get free delivery by the express company.

EXTRAS. It is the practice of most growers to give extras on orders. I always put in some myself. So it would help me if you will mention whether you want extras of the same varieties that you order or in other kinds. And if you have a preference it will help me still more if you can name the varieties in which you want your extras and if you want large, medium or small bulbs or bulblets. Just give us a list of varieties from which to select your extras. We will put in what we think the order rates. But no 1948 introductions for extras.

PLEASE DO NOT SEND STAMPS.

GREETINGS

To all old and new customers alike I want to thank you for another Successful Season. 1947 was very cold, wet and late for planting and followed by the driest season we have ever had. But in spite of it I had some nice cut flowers and a fine crop of extra clean bulbs. We will give you extra good count on all retail orders that stock is available, and on account of poor health I have got to cut down on raising glads, so anyone desiring quantity lots, send me a list of your wants and I will quote you a special price on it, providing you want 100 or more of a kind and size. But don't ask for special price by the 100 and then order 25 for that price. If you want only 25 order at the 100 rate—which is 8 times 10 rate F.O.B. Barre, Vt. I have a few new ones to Introduce this year and I will give extra good count on them if you want to try them.

Gladly yours,

HATCH GLAD GARDENS—S. P. P. HATCH

1948 INTRODUCTIONS

(No Discount)

Brilliant Glow (Ha.) (Very Early). One of the most beautiful colored red glads to-day. With 12 out of 16–18 total buds open at once, and the rest showing color. It has a 28 in. head and grows 58 inches high, nice placement and spacing and always straight and every spike salable. Opens good when cut in bud making it a fine commercial as well as a fine show spike. With its many open floret's

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
	3.00	2.00	1.00	10—2.00

Growers Special: 5 Med. or 5 Small and 100 Bbts. \$10.00

Pat (Ha.) (Early). A light rose pink heavily ruffling with 6–7 4½ inch round florets open. 6 more showing color. It has grace and form and never crooks; double row placement. It sure is a lovely flower for the ones that do not want too large a flower to decorate the house.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
	\$1.00	\$.75	\$.50	10—\$1.00

Marjorie Phyllis (Ha.) (Mid. Season). Color pink deeper on outer edges and deeper feather on light throat. Opens 8–10 6½ inch ruffled florets at once. 18–20 total buds on a 26 inch head and will grow 5 ft. high, always straight and good placement. It makes a wonderful spike of gant size. Last year John E. Kerns of Chester Heights, Pa. came up from the Boston Show to see my garden, and when he saw Marjorie Phyllis he said if he'd had that spike down to the Boston Show he could have beat anything that was there. It sure is a beautiful flower, but I am not asking \$10.00 like some do. I am putting the price down where everyone can try it and see what a glad it is.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
	\$3.00	\$2.00	\$1.00	2—\$.50 10—2.00

What-A-Dream A beautiful light rose with deep lavender throat. Something to look at, when you see a spike of What-A-Dream. With 7–8 6" heavily ruffled florets open at once and 6 more showing good color on a 28 inch head. With 18–20 total buds, will grow 58 inches high. Straight as a gun barrel and has fine 2 row placement. What a Glad. Better then Bengasi for me for it does not crook.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
	\$3.00	\$2.00	\$1.00

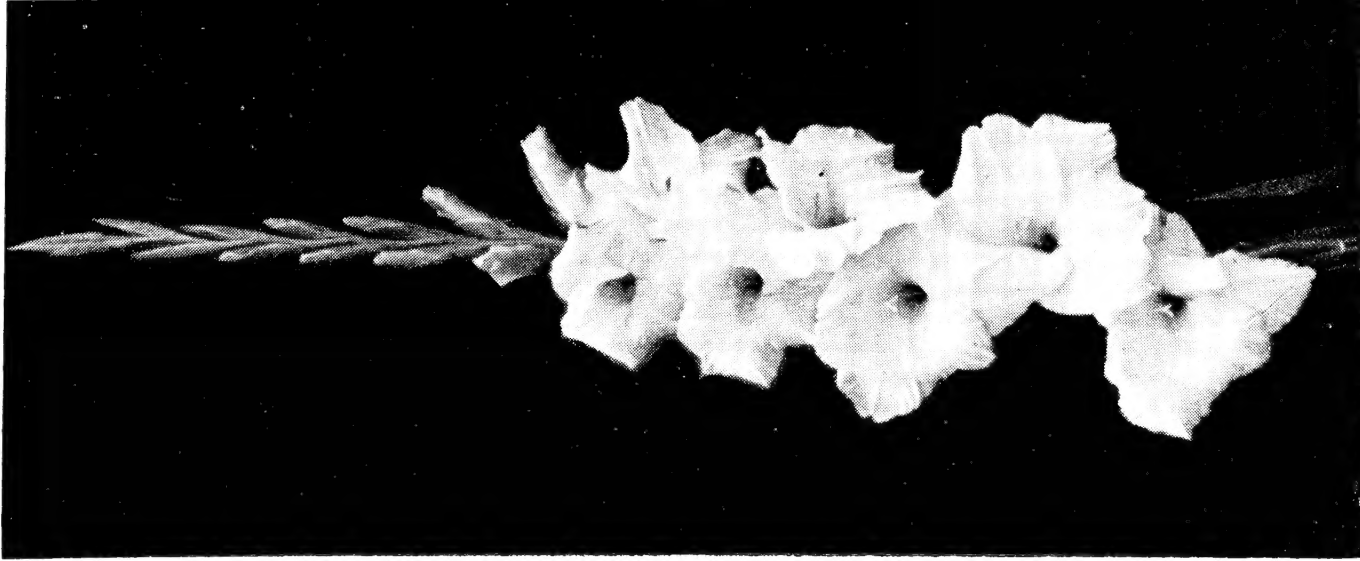

Bblts. sold only with bulbs.

1 large bulb and 10 bulbets \$5.00; or 2 medium bulbs and 10 bulbets \$5.00; or 4 small bulbs and 10 bulbets \$5.00.

Mary Marie (Ha.) (Mid. Season). Color peaches and cream or creamish pink. I will give up, I'm color blind. But it is a beauty anyway. It will open 7–6" ruffled florets, 6 more showing color on a 20 bud spike, double row placement and grows straight. 5 ft high in field. Very nice.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
	\$1.00	\$.75	\$.50	10—\$1.00

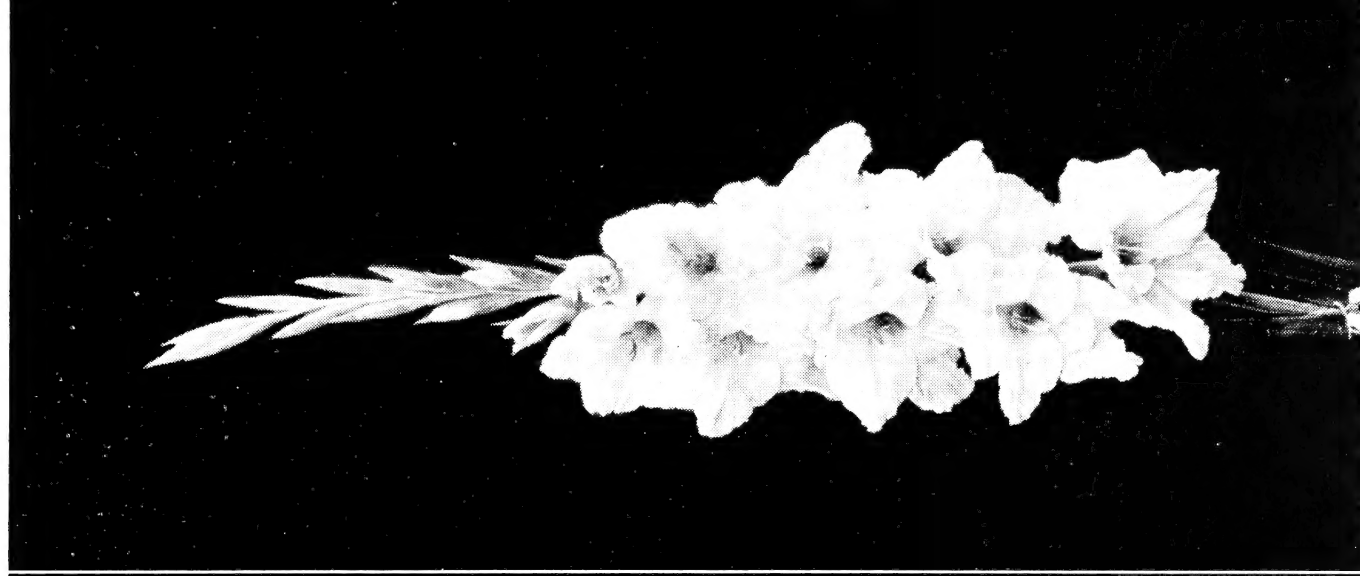

Burlington (Vt.) (H.) Seedling No. Bea. 6. (Med. Season). Color between scarlet and rose with large cream throat. Rose when cut in tight bud. Will open good in water. Will grow 60 inches

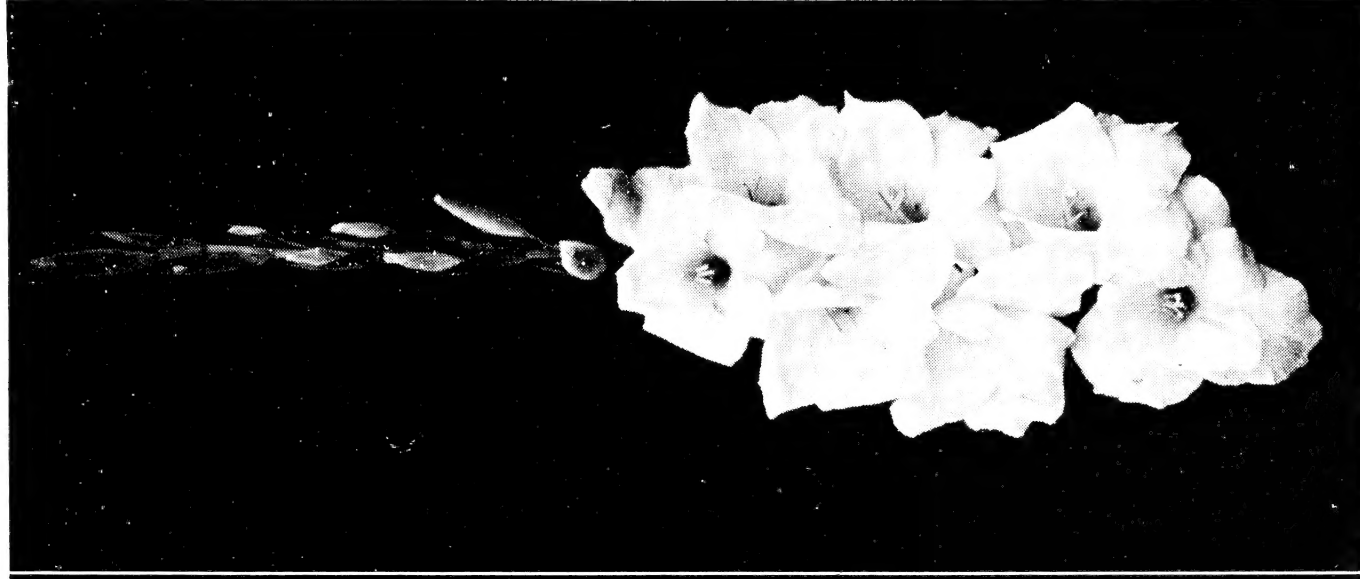

FAIR LADY

MRS. MacARTHUR

MARINES OF GUADALCANAL

SILVER SWORD

tall and stand up without staking. 18-20 buds; 6-8 open at a time. Florets 5½ inches across, a most beautiful flower, liked by everyone that sees it.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS

Merlie (Smith). (H.) (Maid of Orleans X Silver Sword Seedling No. 1940-11). (Med. Season). Color White. Height 50 inches, 24 inch head with 18 buds and will hold 8 5 inch florets open in field with 6 more showing color. A beauty in the home garden. And the florists like it very much for baskets and sprays. It is a nice graceful spike, no crooks.

10	8.00	6.00	4.00	100—3.00

Geraldene. Name changed to **Gerry.** (H.) (Arethusa X Marleen). Color white. A good commercial as well as a grand show flower which will be able to win its share of blue ribbons when stock is available. Will open 10 5½ inch blooms at a time and has the same lovely ruffled edges as Arethusa and has a slim wiry straight spike that is supreme in form and grace. Will grow 5 ft. high in field. You sure will all like this one.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS

INTRODUCTIONS FOR 1945

Rose Red. Seedling Arabella X Marleen No. 12. A dark red going to a rich rose throat. Grows to 6 feet or over. No crooked spikes. Slim, wiry stem that stands up well in field. 6-8 5½ inch florets open at a time. 5-6 more showing good color on a 28-inch head. 18-20 total buds. Excellent placement. Stands up like the Statue of Liberty and attracts the attention of everyone

that comes to my field. I know you will like it. I have a large stock, so I am putting the price down in reach of everyone.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1	\$1.50	\$1.35	\$1.25	10—\$1.50
10	4.00	2.80	2.00	100—3.00

Big Smoke. This is a most unusual color to describe. It has all the colors of the rainbow. I have had a lot of visitors to my field say it was the most beautiful smoky they ever saw. It will open 8 6 inch florets with 6–8 more showing good color on a 34-inch head with 18–22 buds. Straight, healthy grower with lots of bulblets that grow fine. A sure winner at the shows. One that everyone will want when seen.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1	\$1.00	\$1.75	\$1.50	2—\$1.50
10	8.00	6.00	4.00	10—2.00

Campfire. Seedling A-41 Commander Koehl X Rocket. This is a most clear, bright velvety red, a little lighter than Commander Koehl. It will grow up to 6 feet high. 36-inch head, 8–10 6 inch florets open at a time with a total of 20–26 buds. Always straight spikes with double row in graceful placement. One that everyone will want when they see it. Lots of bulblets that grow 95%.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1	\$1.00	\$1.50	\$1.25	10—\$1.50
10	8.00	4.00	2.00	100—3.00

Snow Glory. Seedling S. B. X M. No. 2. Marleen X Star of Bethlehem. A beautiful, heavily ruffled white that will open 10 5½ inch florets with several more showing color on a 30-inch head with 18–24 total buds. Perfect placement, good substance. Never have had a crooked spike in 5 years of trial. Good healthy grower. Lots of bulblets that grow 100%. Will grow 5 to 6 feet high in field. Everyone that has seen it in my field is amazed at its beauty. No one that tries this one will be disappointed.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1	\$1.50	\$1.25	2—\$1.25	10—\$1.25
20	4.00	2.00	1.00	100—1.00

Gray Wonder. This is a beautiful light gray that everyone who sees it wants right then. It will open 8–10 in the field and when cut will keep until most every one of the buds open. 26-inch head with 16–18 buds. The florets are round, wide open and ruffled. Has lots of bulblets that grow 95%. The florists here like it very much and call for all the blooms I have of it.

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1		\$1.25	\$1.15	10—\$1.25
10		2.00	1.20	100—1.00

Glacier. Seedling S. B. X M No. 1. Marleen X Star of Bethlehem. A very large white that grows 6 feet high. 30-inch flower head with 6–8 6 inch florets open, 5 more showing color. 18–22 total buds. Strong, straight spike that never crooks or falls over in the field. Nice, healthy grower with lots of bulblets that grow 100%. Good placement and substance. One that a lot of people have asked me when I was going to release. So here goes!

PRICE	LARGE	MEDIUM	SMALL	BULBLETS
1	\$1.25	2—\$1.20	2—\$1.15	2—\$1.25

Miss Vermont. Seedling P-M-H. 12. Marleen X Picardy. This is a large exhibit and a good commercial variety. Early bloomer, 75 to 80 days. Color is light pink with a beautiful lavender cast. Grows 5 feet high, 30-inch head, 20–24 buds, and will open 8–10 6 inch ruffled florets at a time with 5–6 more showing color. Perfect placement arranged in double row. Spikes are always straight and stand up well in field. A good producer of large bulblets that grow 100%. I sent a couple of bulbs to H. V. Wright in 1943 to plant in the Maryland Trial Gardens, and it was given an Award of Merit. Mr. Wright wrote me this fall that he planted it in his own garden this year (1944) and entered the first spike that bloomed in the Seedling Division at their 1944 Show held at Havre de Grace, Maryland. It was selected as the Champion Seedling Spike from among approximately 75 seedlings shown in the Division. This is one I know you will all like.

Light scarlet with white blotches, beautiful color.	10	2.00	.75	.50	100	1.00	
TUNIAS MAHOMET (Both).....	2	1.00	.75	.50	10	.25	
This glad has a depth of color unusual even for smokies, deep velvety plum rose with orange scarlet in throat. Edges run deeper color. Originator calls it most beautiful smoky.	10	4.00	3.00	2.00	100	2.00	
VALOR	2	.25	
Deep salmon with cream throat. Good com.	
VANGOLD	2	.50	.40	.20	25	.30	
Very popular early large yellow. Very dark.	10	2.00	1.50	1.00	100	1.00	
VASSAR	1	.15	.10	100	.50	
Extra good ruffled clear light orange.	10	1.20	1.00	
W. R. REEDER (Turnbull).....	1	.25	2-.25	3-.20	10	.25	
Early light salmon pink. Many open wonderful straight spike.	10	2.00	1.00	.60	100	1.00	
WHITE GOLD	2	.25	3-.25	10	.25	
Largest cream to date. Very popular.	10	1.00	.50	.40	100	1.00	
WINGS OF SONG	1	.10	2-.15	100	.50	
Large lovely pink.80	.60	
WINSTON	2	.20	3-.20	100	.50	
Very pretty cream.	10	.50	.40	.30	

SPECIAL COLLECTIONS AND SETS

I WILL DUPLICATE THE SPECIAL OFFERS OF ANY OTHER RELIABLE GROWER IF I HAVE THE STOCK.

No. A COLLECTION UNLABELED. 100 large bulbs, 20 varieties. **\$3.00.**

ALL COLLECTIONS F.O.B. BARRE.

No. 1 UNLABELED COLLECTION. 100 assorted large bulbs (1 inch up) in at least 40 varieties in about every shade in gladiolus. I have sold this collection for years and have thousands of well pleased customers. **I positively guarantee there is not a better collection sold by any grower in the country for anywhere near the price. I get many repeat orders every year from well pleased customers. 100 for \$5.00; 50 for \$2.75; 25 for \$1.50.**

No. 1a. SAME COLLECTION IN MEDIUM SIZE BULBS. 100 bulbs for **\$3.00; 50 for \$1.75.**

No. 2 UNLABELED COLLECTION. 100 assorted as above containing 50 varieties or more including **many of the new and higher priced ones.** A wonderful collection at a moderate price. **100 for \$10.00; 25 and 50 at the same rate.** With each 100 I will give 2 bulbs of any of my 1944 releases your choosing labeled Free. None of this Collection are labeled as to varieties. Don't ask us to give you the names of the varieties as we positively do not do it at these prices. If you want them labeled buy them under name. I guarantee the collection to be the best for the price.

I am not listing any wholesale price this year. But if there is anything anyone wants send me your list I might be able to supply you. 100 rate 8 times 10 rate F.O.B. Barre.

CULTURAL NOTES

SOIL AND FERTILIZER. Gladiolus do well on most any soil but they must be planted in the open garden where there is plenty of sunshine and sufficient moisture. Any good garden soil is quite satisfactory. Soil should have good drainage, as gladiolus do not like "wet feet." If your soil is not rich in humus, you may apply good stable manure and turn under in the fall. Providing manure is not available you may use pulverized sheep or cow manure in the bottom of the trench at planting time, covering it with about an inch of soil so that it does not come in contact with the bulb, and then plant the bulbs. A good all around commercial fertilizer may be used as side dressing along the rows, starting with the time when the plants are about six inches high. Keep the fertilizer back about six inches from the plant, making sure that none of it comes in direct contact with the leaves as serious burning of the foliage would ensue. After the side dressing is made, thoroughly soak down with water. We have found that 2-12-6 or 2-16-8 fertilizers work out very well. Another side dressing could be made just before blooming or when you can see the stem commence to thicken, indicating that the buds will soon be shoving up from the foliage. Immense spikes are obtained by heavy fertilizing, plus at least an inch of water about every four days. When you water them soak them as just a light sprinkling does more harm than good.

PLANTING. Work the soil well to a depth of eight to ten inches. Large bulbs should be covered with not less than four inches of soil and many cover them to a depth of six inches. The deeper planting produces a root growth a greater distance below the surface of the ground and also tends to prevent them from tipping over when in bloom. The smaller bulbs are planted shallower than the large bulbs, but in any event not less than two inches in depth. Make your rows from 18 in. to 2 ft. apart, depending on the room you have available in your garden. Plant the bulbs about eight inches apart in the row, however, they may be planted closer together than this but the closer they are together the more fertilizer and water you will have to use to produce an equal quality of bloom. Providing you wish to plant the bulbs in beds, space the bulbs about six inches to eight inches each way.

Both glad orders received O. K. Thanks very much for the generous count and extras especially. Madelane was a wonderful Pink.
W. F. H., Iowa.

Thanks for over count and extras. Big Smoke, Gray Wonder, Rose Red and Morning Glory gorgeous.
H. B. King, Ill.

BULBLETS. Bulblets are sown in rows much the same as you would peas and covered with two inches of soil. Rare kinds of bulblets should be partially peeled so that the small bulb will have no difficulty in breaking through. Do not let your planting of bulblets dry out during the process of germination.

TREATING BULBS. If you wish to make sure your bulbs are thrips free, you may treat them before planting with Corrosive Sublimate. **(THIS IS DEADLY POISON AND CARE SHOULD BE USED IN HANDLING IT. KEEP IT AWAY FROM CHILDREN.)** One ounce to ten gallons of water in a wood container or earthenware crock. Soak bulbs or bulblets overnight in this solution and plant them when wet. If you let them dry out before planting you may have trouble with mercury burns on your bulbs which may prevent them from coming up. Our bulbs are guaranteed to be free from thrips when shipped to you.

DIGGING AND STORAGE. The bulbs should be taken up within six weeks to two months after blooming, or before the tops begin to get brown. Even if the tops are still green, they should be taken up before the ground freezes deeply. As soon as dug the tops should be cut off to close the bulb, then the bulbs placed in screen bottomed trays for curing. Keep out of the direct rays of the boiling hot sun during the curing process but be sure there is plenty of ventilation around and through the trays. The trays should not be more than three or four inches deep. Stir the bulbs every few days and keep in a dry ventilated place. In a couple or three weeks they will be cured so that the old bulbs with the roots may be easily removed. After removing the old bulb and roots, allow them to dry for about a week more before they are placed in storage. Bulbs should be dry and free from moisture when placed in winter storage. Common greenhouse flats with the bottoms removed and common window screen tacked on the bottom makes a good storage tray for small quantities of bulbs.

Store them in a cool dry place. A storage temperature of from 40 to 45 degrees is best. A little ventilation does them good providing a direct draft does not hit the bulb and be sure that the air with which you are ventilating is not below freezing temperature. It is well to look the bulbs over every two or three weeks and if any of them show signs of too much moisture or have a mouldy look, dry them out, and give better ventilation. Keep them in small containers and spread thin.

OPEN UP YOUR SHIPMENT. When your shipment of bulbs arrive, unpack at once and open the bags letting in the air. If they appear to be moist, allow them to dry before placing in storage.

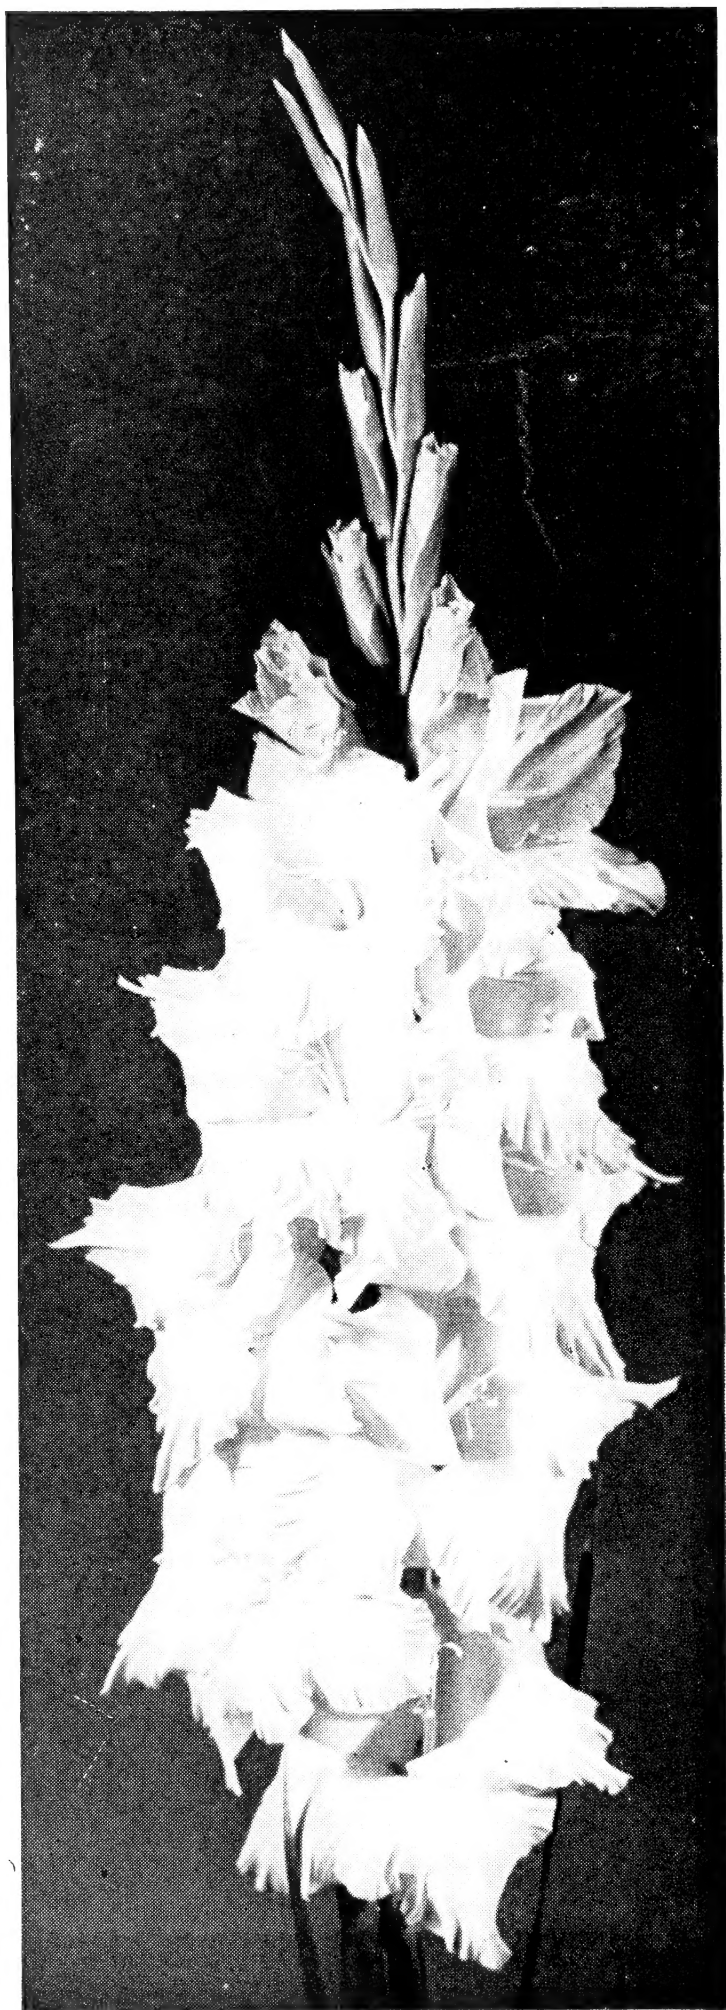

LYSOL DIP. 1 tablespoonful of Lysol to 1 gal. of water, soak 5 to 6 hours and plant while wet. That is what I use.

I want to say that the Lexingtons and Marines of Guadalcanal which I bought a couple of years ago were simply outstanding this year. They just took one's breath away, that's all.
L. H. Phillips, Wisconsin.

The glad bulbs I received of you was wonderful especially Avalon, Madelane, Giant, Glamis and the two seedlings you sent me for extras No. PXM-10-B, (now named Mrs. Douglas MacArthur) and S. T. X. U. No. 10 Light buff (now named Marines of Guadalcanal) was gorgeous. I did not know any flower could be so beautiful.
Mrs. Arthur Smith, N. H.

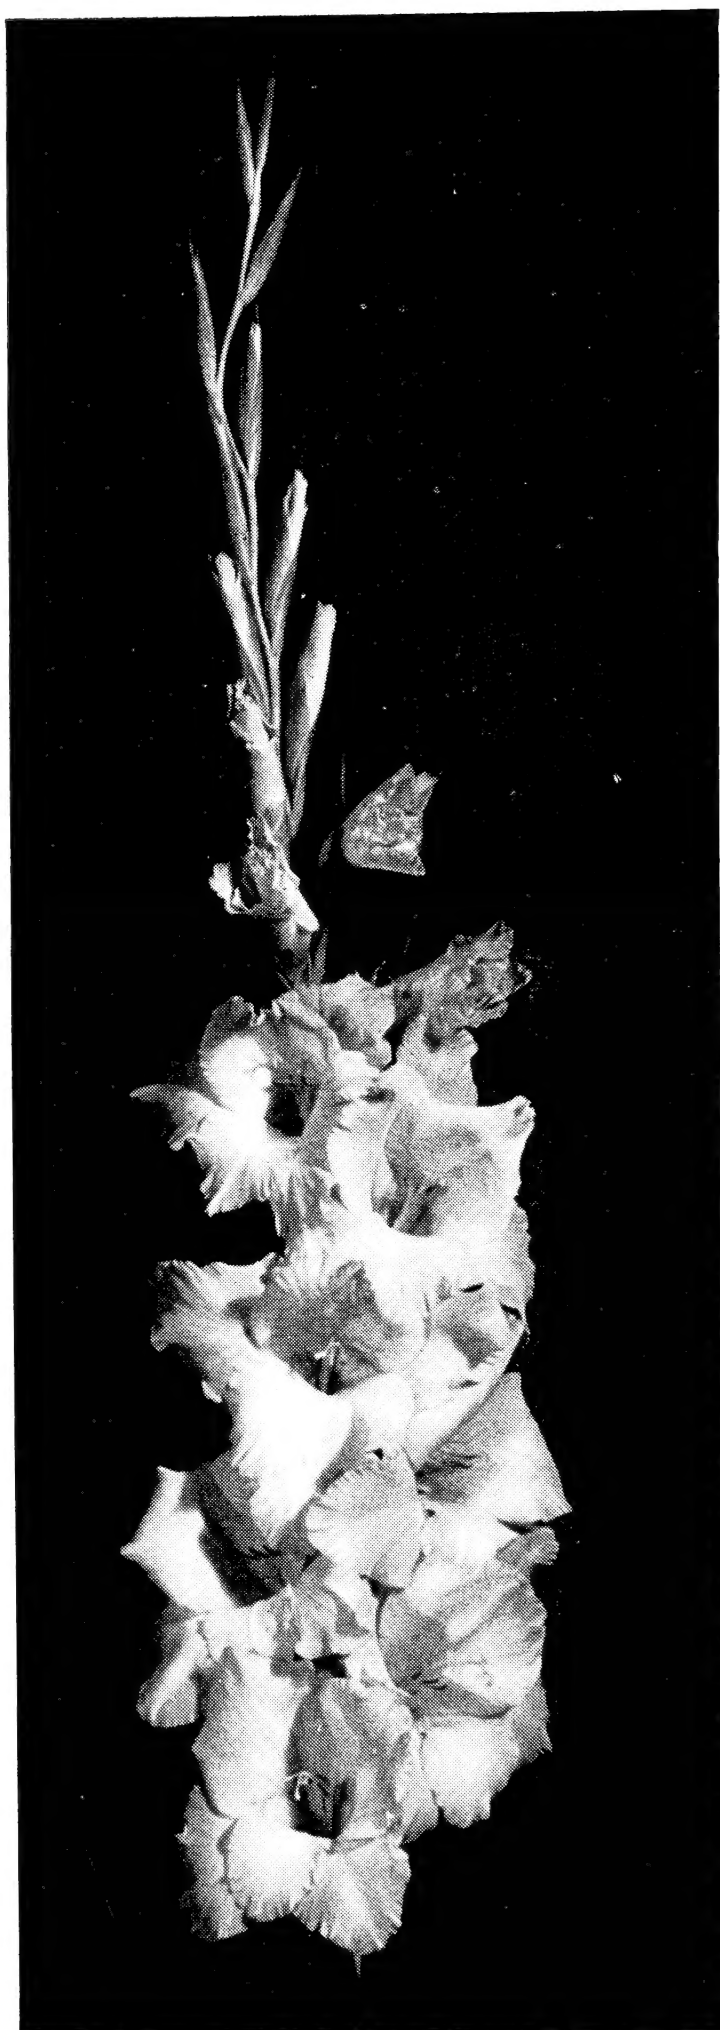

The Fair Angel Glad I bought of you last spring was the most gorgeous thing I ever saw; the neighbors marveled at seeing such a beautiful glad and your over count and extras were beyond expectation.
Mrs. Mary Hancock, N. H.

Your Rose Red was the best thing I had in my garden this year. C. H. C., Ohio.
